Sort 43 – Syllables and Affixes

Words with Silent Consonants

Every word in the sort this week has a silent letter. Some words have two silent letters and can go in more than one column.

After sorting your words you need to go on a word hunt and find at least one word for each category that is not in your sort.

Silent t	Silent g	Silent w	Silent k	Silent h	Silent gh

This week you are going to go to www.puzzlemaker.com and create a crossword (criss cross) puzzle for any 16 words from your list. When you finish your puzzle, you must give it to another person in your sort to complete. You must also complete another puzzle that someone else has created this week. Note: you must have the definitions of the words to create your puzzle.
